

Track B: Clinical Science

Alicia Piñeirúa Menéndez, Mexico

Alicia Piñeirúa Menéndez, MD, MPH, is an infectious disease physician who received her clinical training at the Instituto Nacional de Ciencias Médicas y Nutrición Salvador Zubirán in Mexico City, Mexico. Later, she completed her MPH at Rollins School of Public Health in Emory, Atlanta, Georgia, US, with a focus on infectious diseases. During her Master degree, she conducted qualitative research with Oaxacan women living with HIV in order to explore their diagnosis trajectories and experiences. She is currently Clinical Coordinator at the Clínica Especializada Condesa Iztapalapa in Mexico City and participates in various research projects. The most relevant ongoing projects include the identification of HIV networks in Mexico City and a cohort of adolescents living with HIV receiving care at Clínica Especializada Condesa. Her areas of interest and research also include social determinants of infectious diseases, women living

with HIV and HIV/HCV co-infection.
